

THE TERRITORY OF NEBRASKA

EMBRACING THE PUBLIC SURVEY
UP TO THE SUMMER OF 1857

COMPILED & DRAWN IN THE SURVEYOR GENERAL'S OFFICE
FROM ORIGINAL NOTES

QUIN SMITH & VAN ZANDT

Scale: Five Miles to One Inch

I have examined with much care this Map of Nebraska compiled of intervals by Quin Smith and Van Zandt of this office and find pleasure in testifying to its correctness. It is not only accurately and truthfully delineated, but contains every and every detail of the topographical data found in the original notes up to the present date, but also contains from no less reliable source, a large amount of other useful information, which cannot fail to make it highly acceptable to the public.

Wm. McKim
Surveyor General's Office, Jefferson, Mo.
June 1857
